

## INTEGRATED QUALITY POLICY

Distribution:  
All collaborators

BASIC S.r.l operates in the field of design, development, implementation and sale of solutions innovative for the installation and construction of photovoltaic systems on flat surfaces.

LEADERSHIP implements the Company Management System for Quality in its company. Therefore, LEADERSHIP has transformed the business objectives described in the Administrative Scale into concrete actions through the management system as follows:

- Evaluating the context in which Basic S.r.l was born and identifying risks and opportunities in order to mitigate one and expand the other.
- Keeping informed, trained and trained staff through training courses pre-established, thus ensuring high competence and awareness of the staff.
- Complying with the legal requirements in force on the territory respecting the environment and health and worker safety.
- Following plans and programmes established annually and reviewed periodically, in order to ensure the achievement of the objectives, which are monitored through indicators statistics for achieving greater expansion.
- Describing the ideal scene, with a view to continuous improvement, we designate the future of BASIC S.r.l to ensure its expansion.

The principles set forth in this policy are shared, published, and communicated to all stakeholders, internal and external, who cooperate with the company.

The Executive Director  
Maurizio Iannuzzi
